COVID-19 IgG/IgM Rapid Test

► **Features & Benefits:** The COVID-19 IgG/IgM Rapid Test Kit is a Human IgM/IgG Rapid Test that provides fast, convenient, and qualitative testing of human whole blood, plasma, and serum for COVID-19 IgM and IgG.

The Rapid Test provides Fast results in 15 minutes. It's easy to operate and highly sensitive via visual inspection. The test kits are authorized for use under the FDA Emergency Use Authorization Program to aid in the containment and mitigation of the COVID 19 virus. The test kits are available from both CE and FDA registered manufacturing facilities. This test kit has not been reviewed by the FDA.

Negative results do not rule out SARS-CoV-2 infection, particularly in those who have been in contact with the virus. Follow-up testing with a molecular diagnostic should be considered to rule out infection in these individuals. Results from antibody testing should not be used as the sole basis to diagnose or exclude SARS-CoV-2 infection or to inform infection status.

Positive results may be due to past or present infection with non-SARSCoV-2 coronavirus strains, such as coronavirus HKU1, NL63, OC43, or 229E. This product is for professional use only.

- **MOQ:** 1,000
- **Lead Time:** 7-10 Days from Payment of Order
- **Certification:** CE Certified, FDA, and CDC Accepted for Use under the Emergency Use Authorization

► **Note:** *This is the current product offering. Offerings are Subject to Change based on product availability. GRMC will notify customers on any product changes due to non-availability or unacceptable lead times. All substituted products will meet the appropriate certifications.*
